Advanced Primary Care at GBMC: Better Health Begins with Your Care Team

CONTACT US
There are multiple ways to access your provider and care team outside of an in-person office visit. These include:

MyChart Patient Portal
Manage your health 24/7 by going to www.gbmc.org/mychart. With MyChart, you can request an appointment, view certain test results, communicate with your physicians and other members of your care team, pay bills online, and request prescription refills and referrals.

Website
Visit www.gbmc.org/mydoctor to find office hours and contact information and to learn more about GBMC providers.

Phone
Call the office directly or the main GBMC number at 443-849-2000.

YOUR CARE TEAM MEMBERS:

The mission of GBMC is to provide medical care and service of the highest quality to each patient and to educate the next generation of clinicians, leading to health, healing and hope for the community.

VISION PHRASE
To every patient, every time, we will provide the care that we would want for our own loved ones.

GREATER VALUES
The values of GBMC are our GREATER Values of Respect, Excellence, Accountability, Teamwork, Ethical Behavior and Results.
Our Goal is to Improve Your Health and Well-Being

At GBMC, our mission is to provide the care that we would want for our own loved ones. One of the ways we do this is by delivering advanced primary care services through a multi-disciplinary care team. This means that you have a team of healthcare professionals making sure you get the best care for every part of your health and well-being. Our goal is keep you healthy and out of the hospital.

Your Care Team

Your care team is here to help you meet your health and well-being goals. Depending on your needs, a customized care team is formed to help you meet your goals and to support your primary care provider. In addition to your provider, members of your care team may include:

Nurse Care Manager:
Provides education and resources to help manage chronic diseases.
- Creates care plans and sets measurable targets to help you stay on track with your health-related goals
- Provides clinical education and resources to help you manage your health

• Contacts you after an inpatient hospital stay to schedule a follow-up visit with your primary care provider, review your medicines, and go over discharge instructions

Care Coordinator:
Helps you understand the healthcare system and provides support during your care.
- Helps you coordinate medical equipment needs, home health visits, and urgent appointments with specialists
- Connects you with community resources such as transportation assistance, medicine discounts, financial support, and grief counseling services
- Contacts you after an emergency department visit to schedule a follow-up visit with your primary care provider

Behavioral Health Consultant:
Sheppard Pratt Integrated Behavioral Health at GBMC Health Partners is a partnership that allows us to provide behavioral health resources within each primary care practice to proactively address a wide range of mental health and addiction disorders.
- Provides screening, consultations, and short-term treatment if you are having symptoms of a mental health condition or substance abuse disorder
- Connects you with local mental health or substance abuse resources when symptoms are not able to be treated using a short-term approach

KNOW BEFORE YOU GO!
